PARENT TEACHER MEET

We firmly believe that positive communication between parents and teachers goes a long way in improving the efficacy of education. We ensure active participation of parents in the teaching learning process. Apart from regular periodic communication between the teachers and parents PTMs were held during the pandemic. Parents met the class teachers and discussed the performance of students with their parents also feedback regarding their studies, health and performance will be discussed with their parents. The progress report will be shown to the parents and their suggestions will be noted.

Any sign of a child failing to make progress, regardless of where they are in the lower, middle or higher range is questioned and addressed. The progress of the students depends on the joint effort, mutual understanding and co-operation of parents and teachers are very important for the proper nourishment and progress of students.

Office Hours

Office hours is the time scheduled outside the formal class to meet learners to discuss the topics presented in the class, seek clarifications on the topics and clarify doubts. Office hours provided opportunities to some of the learners to share their confusions and questions more confidently than they could do during class. This allowed the educators to give individual attention to the learners. Special efforts were made by the educators to warmly encourage the learners for office hours and create a positive environment during these sessions. Careful and considerate planning went into designing these officer hours.

Bridge Sessions

To bridge the gap in academic content, for better clarity of the concepts, to raise the understanding of learners and to eliminate learning difficulties, bridge sessions were designed for different subjects. A specially designed curriculum was framed and required for remedial measures but taken to teach. This approach lead to productive results and the growth in the learners.
